

To Whom It May Concern,

As a mom of a child with autism, The "I" in IEP is crucial. as no two children are alike on the spectrum, my child's program is made up of expertise of specialists in a vast range of knowledge. Outside providers such as BCBA'S (board certified behavior analysts) OT's (Occupational Therapists), SLP's (speech and language pathologists) are a few of the many enlightened and hardworking individuals that reach my son every day.

RB 5477 will discontinue these services and leave my son unable to learn in norwalk public schools. Training is not available or possible within our public education for the highly specialized skills necessary to propel my son forward.

Please vote "NO" to **RB 5447**

Sincerely,

Kim Tromba
